DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Baldine Brunel Paul on August 24th, 2004.

The application has been amended as follows:

Claim 6 (Currently Amended): A semiconductor device provided with a mounting leg to be inserted into a mounting hole of a base plate, characterized in that said mounting leg includes an elastic vertical leg body which extends downward from a body of said case and a contact portion to be brought into elastic contact with a lower edge of said mounting hole at a lower part of said leg body, and said contact portion has a slope in which ~~slopes~~ said slope extends outward and downward from the side of said vertical leg body.

Reasons for Allowance

2. Claims 6-12 are allowable over the prior art.
3. The following is an examiner's statement of reasons for allowance: Tada et al 5,042,148 disclose a device comprising base plate (10), in which a contact finger (11) is mounted through hole (10a). The lower edge of base plate (10) contacts the lower end of finger (11a). However, the slope at the bottom of finger (11a) does not *extend*

outward and downward. As a result, claim 6 and dependent claims 7-12 are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
